

Pappas Telecasting Companies' has followed Sinclair Broadcasting's lead, and is attempting to give a biased nudge to Republican candidates statewide. \$325,000 of airtime has been gifted to Republicans by Pappas. And Democrats? Why Pappas offered that they could purchase equal response time.

This is the type of shenanigan that makes a farce of our democracy. Self-entitled, corporate heads decide that they can game our system any way they like for their own benefit, despite the fact that they are borrowing the "people's airwaves." This is hardly serving the public interest. It is more an act of corruption aimed at robbing the citizenry of their right to well-rounded debate.

These actions must be met with consequences. There'll always be such self-serving, wannabe tyrants in this world as Sinclair and Pappas. But that's what makes America so great: we band together with principles of fairness and justice, thwarting the plans of such arrogant, self-serving men. The FCC being the branch of the American system responsible for dealing with these types of abusers -- the American people expect you to do your part. Please stop the further consolidation and monopolization of our airwaves. Our democracy is counting on you.

Thank you,  
Greg Ice
